ABOUT ME

I am highly motivated front-end developer with a passion for creating beautiful, clean coded, disability complaint website that are easy to navigate and absorb.

WORK EXPERIENCE

Freelance | Apr 2022 - Apr 2023

Frontend Developer | Project cmaps PT. cds asia electronics

- Working as freelancer in frontend web, I make website using React JS. I slicing web design into code using React JS for reusable component and make it responsive.
- I use CMS for ERP system using React JS, and use Typescript as base and use material ui for css design.
- for display improvement in the second stage of this project I use the tailwind framework

Notary Office | Aug 2015 - Present

IT Support

- There I joined as it support to build a modern system for example making file storage via the web that I made using codeigniter

PPPPTK VEDC Malang | Mar 2013 - Jun 2013

Internship Program

- While I was here, I took several courses on several programming languages and helped complete the assignments of the lecturers
